***Allowable Subject Matter***

2. Claims 1-19 are allowed.
3. The following is an examiner's statement of reasons for allowance:

With regard to claim 1, the prior art of record fails to show or suggest a system for data transmission over an optical network comprising both and separately a service collection unit and an aggregator. Parruck et al. (U.S. Pat No. 6,751,214) discloses a service collection unit Fig. 8 with a collection module 804 and a packet transmission module 814, and an aggregator Fig. 11 with a sorting module 1110. However, the service collection unit is missing a processing module and the aggregator is missing a

service aggregation module. Parruck et al. (U.S. Pat No. 6,751,224 and 6,810,039) disclose handling ATM/packets (a plurality of services data) in one SAR chip 302, and fails to explicitly show a service collection unit and an aggregator. Bisson et al. (Pub No. US2003/0026298) discloses a service collection unit and aggregator in one 10,80, but clients 1-n are not a plurality of services.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
